APACHE MOJAVE INDIANS.

Mr. Dan O'Leary one of the best posted men in regard to Indian affairs in this section of the Territory and who has the confidence of the Hualapai Indians, gave us the information which we published a few weeks since in regard to the Apache Mojaves being off their reservation, the San Carles, and as living in the vicinity of the Santa Maria. We were satisfied that his statements were strictly true, knowing Dan as we do, and in town. He is making preperation to comhas satisfied himself as to their correctness. sheep Since we published the fact that it was our belief that many Apache Mojave Indians were off their reservation, Governor Safford has been to Mojave county in a buggy following the main traveled road from Wickenburg to Greenwood and did cross the Santa Maria at one place going to the aforesaid town of Greenwood and did not see any Apache Mojave Indians. This news has been telegraphed far and wide to the effect that the Governor had made an examination and inquired into the matter and found that ing the MINER in the lie as well as our informant.

Now as a matter of pride on our part, to quire into all the facts and ascertain, correctly, the exact locality of these Indians, etc. That Gov. Safford made inquiries about these nut Grove. Indians, we have no doubt, and that he received information to the effect that there the Governor was sanguine in the belief that charge regularly, and therefore the fault people to our Territory a good one. Again we are informed he Mr. O'Leary that about thirty renegades from the San Carlos are living on the head reservation, there can be no doubt and had the Governor visited the mountains and places above narrated we think he would have and as he did not travel off the main wagon road, certainly could not have expected to find the Indians he was in search of.

These Indians are all well disposed and claim that they wish to live in this portion of the Territory, and are anxious to become citizens. They know that they have no but little to fear from the whites.

CLUM'S INDIANS.

It will be remembered that we, some days | mons' wagon, ago, published an item in relation to some Indians coming up from San Carlos and killing an Indian and Stanley's horse, near Camp Apache, and that we regarded the matter, as did the officers at Camp Apache, as murder, and commented on it accordingly. Our surprise can be appreciated when, in looking over Mr. Clum's "prelude" wherein he "once more stoops to combat," we find his official order for this very transaction. crops, etc. in the valley In its preamble this order recites that Marijildo Grigalva and his party are sent out to without doubt in the vicinity of Camp the Senator mine.
